OUR WORLD IS CHANGING...SHOULDN'T YOU?

Certificate in Intellectual Property and Indigenous Knowledge Systems

About this programme

The criteria set for intellectual property under the current Intellectual Property Rights (IPR) are inadequate to protect indigenous/traditional knowledge. IPRs are largely centred on individual and not collective rights which is characteristic of indigenous/traditional knowledge. Indigenous knowledge is a social capital of marginalised groups. Most of this knowledge is being misappropriated without any benefit for the knowledge producers themselves. Therefore, there is a need to create awareness among participants on the importance of protecting indigenous knowledge systems for equitable benefit sharing with indigenous knowledge producers.

The current international system for protecting intellectual property was developed to meet the interest and needs of technologically advanced societies. It is incompatible with protecting indigenous knowledge systems. The Certificate in Intellectual Property and Indigenous Knowledge Systems is a short programme which intends to equip participants with vocationally oriented knowledge of intellectual property rights management as it pertains to the protection and equitable benefit sharing of indigenous knowledge systems. It will also expose the participants to the inherent challenges associated with IPR as a tool for protecting indigenous knowledge.

How you will benefit

- Understand and appreciate the prospects and challenges of protecting indigenous knowledge systems through intellectual property
- Articulate the major concepts and principles of intellectual property in an indigenous knowledge context
- Gain the ability to engage with multiple perspectives, forms and sources of IKS using relevant IPR concepts and principles
- Address the challenges of using IPR for IKS protection and benefit
- Understand and appreciate equitable benefit sharing of indigenous knowledge systems with indigenous knowledge holders and practitioners
- Engage with indigenous knowledge holders and practitioners on the importance of protection and equitable benefit sharing of indigenous knowledge for sustainable livelihoods

Key focus areas

- Introduction to intellectual property and indigenous/traditional knowledge
- Prospects and challenges of IPR for protection and benefit of indigenous/traditional knowledge systems
- Value proposition of intellectual property rights for indigenous/traditional knowledge
- Positive, defensive and Sui Generis protection of indigenous/traditional knowledge
- Prior Informed Consent in indigenous/traditional knowledge systems

Duration

Three days

Facilitators include:

Professor Palamagamba John Kabudi

Dr. iur (Freie Universitaet Berlin Germany), LL.M and LL.B (University of Dar es Salaam, Tanzania). Professor Kabudi is Secretary to Council and Dean of the Faculty of Law, University of Dar es Salaam, Tanzania. He is also an advocate of the High Court of Tanzania; Chairman of Tanzania UNESCO National Heritage Committee; and a Member of the Constitutional Review Commission.

Professor Hassan Kaya
