CERTIFICATE COURSE AS AN INTRODUCTION TO SMART SHIPPING

BOOK NOW
PLACES ARE LIMITED

OCTOBER - DECEMBER 2024

FULL FUNDING AVAILABLE

A FIRST IN SOUTH AFRICA - NOT TO BE MISSED!

If you want to future proof your career in the maritime sector with cutting edge insights into AI and the 4IR, enrol for this fully funded, online certificate course NOW!

The course will enhance and develop your understanding of the efficiency gains and regulatory compliance issues you need to know in relation to:

- ✓ Artificial intelligence and 4IR technologies
- ✓ Autonomous vessels
- ✓ Cybersecurity (ship and port-sector best practices)

The course is suitable for managers and professionals in the shipping and logistics sector looking for practical insights to improve efficiencies and stay ahead of regulatory compliance requirements and risk-planning.

A certificate of attendance will be issued by the UKZN Unit of Maritime Law and Maritime Studies.

This course is ideal for:

- ✓ Managers in Operations, Logistics, Procurement and IT at Shipping and Logistics companies
- ✓ Port terminal operators
- ✓ Shipowners
- ✓ Lawyers
- ✓ Shipping professionals
- ✓ Public sector officials

Subject to eligibility criteria and funding availability.

With TETA funding, South African transport sector company employees would qualify for full funding provided applications are received by 1 September 2024.
